

# LE CLOÎTRE

ARLES

Dear guests,

We thank you for choosing our house for your stay in Arles. Our hotel does not have its own parking, so you can park at the **Parking du Centre** which is more accessible. As it is a public parking, places are not assigned.

Staying with us, you can benefit of a preferential rate of **€24,00 per 24H** in our secured garage providing spaces for electric vehicles. It isn't possible to reserve this service in advance and it remains subject to availability of subscription cards on the day of your arrival at the hotel.

## Little information that matters...

To access our car park, you will have to enter the car park on level 0, the entrance to which is located **8 rue Émile FASSIN**, by taking a ticket. If by any chance the car park is full, ring the bell and tell us you are staying with us, the parking will open the door for you!

Place yourself in front of the box and call us to have the code to come in. You can park your vehicle. Do not forget to let know at Reception that you are there for us to register.

The center car park accepts vehicles up to 2.30m high on the entrance side indicated above.

On your check-out day, two options are available to you:

1. If you have been given a parking card upon your arrival, you can leave it in the letterbox at the exit above it's written Le Cloître / l'Arlatan (do not forget to deposit it, otherwise 20,00€ additional fees will be charged).
2. In case we had no more availability, will be at your expense the usual price of parking.

## Market day:

Every Saturday morning the market takes place on the boulevards *des Lices* and *Georges Clemenceau*. We advise you not to park on the outside car parks, cars being removed by the pound at night. On the other hand, it will be impossible to reach the hotel by car before 2PM on Saturday.

There is also a market every Wednesday morning on boulevard *Emile Combes*. The boulevard remains open, but the parking lots are occupied all morning. Therefore, be careful not to park there, subject to possible impoundment.
